WE BOOST AM

Mobility/Medical goes Additive - The VDI Students Competition

- 1–3 April 2022, Mobility goes Additive e.V., Im Marienpark 22, 12107 Berlin
- International and interdisciplinary students competition on 3D printing and digitization
- Intense experience, bringing together student teams from different universities and different scientific backgrounds
- Focus on interdisciplinary and cross-sectorial potentials of additive manufacturing in connection with the opportunities and challenges of digitization in the fields of mobility and medical engineering
- Applying theory and practice by solving complex problems in the framework of a given use-case
- Be one of the best three teams to be awarded with valuable prizes
- Meet the key players of the industry: students and companies will get in touch
