International Aviation SME Solution of China (IASC)

GLOBAL AEROSPACE  
CLUSTER  
PARTNERSHIP  
by EACP

Supported by  
Global Aerospace Cluster Partnership (GACP)

# About IASC

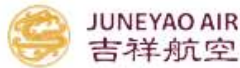

GACP's China Representative

## International Aviation SME Solution of China (IASC)

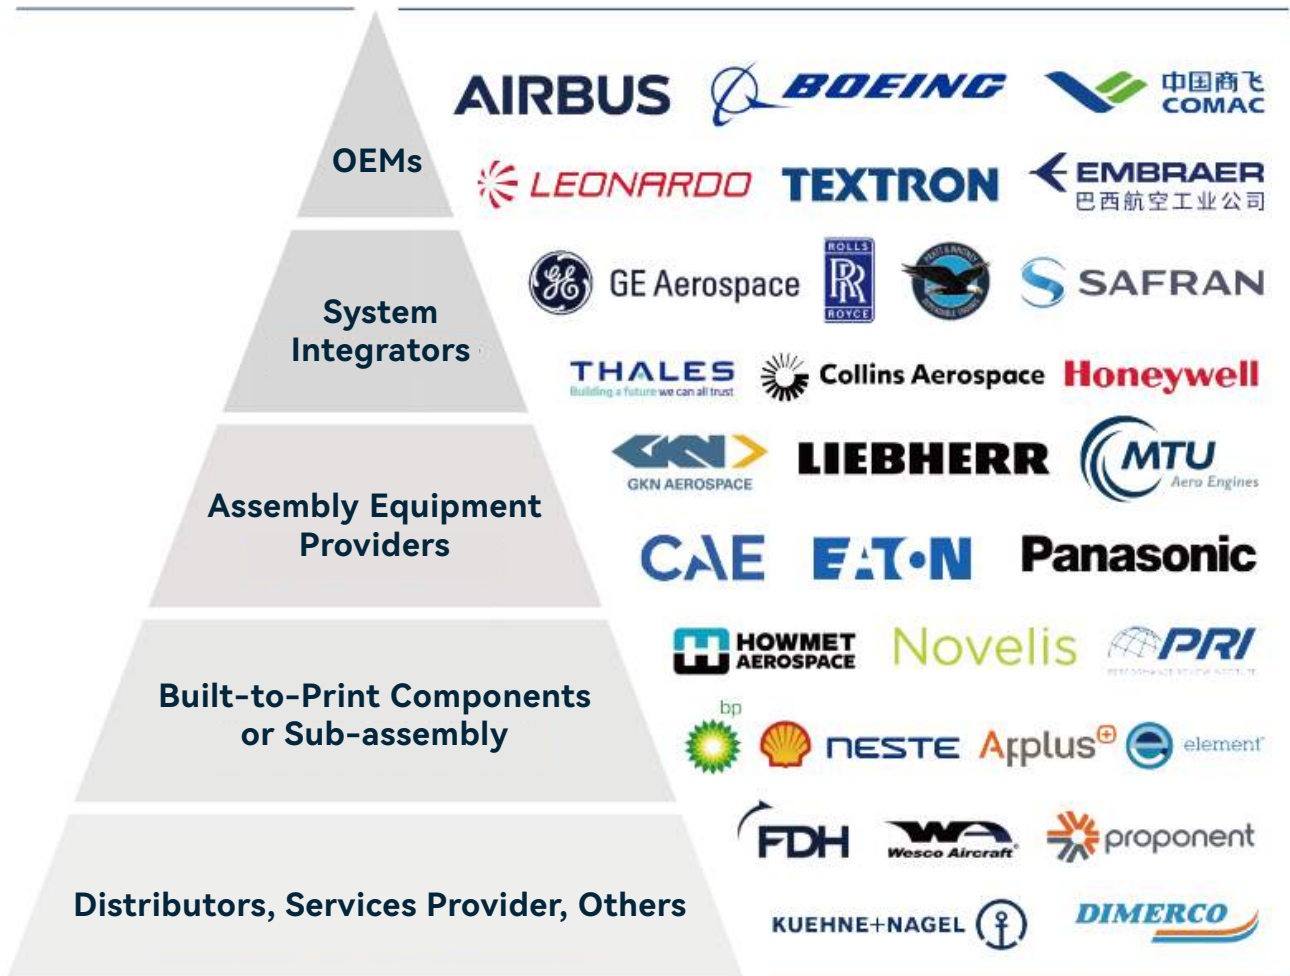

IASC, supported by GACP, functions as an international collaboration accelerator. We are committed to the prosperity of small businesses, startups, and medium-sized enterprises worldwide in the civil aviation sector, recognizing them as the cornerstone of the global aerospace supply chain. We proactively foster cooperation between Chinese and international aviation clusters, providing a comprehensive range of services to support SMEs in establishing sustainable and successful ventures. Our efforts target critical challenges SMEs face, including securing capital, navigating competition, ensuring regulatory adherence, protecting IP assets, and fostering strategic growth.

# About GACP

## Global Collaboration Networking

### Global Aerospace Cluster Partnership (GACP)

With the signature ceremony during the 54th Paris Air Show, the Global Aerospace Cluster Partnership (GACP) was officially established. The Global Aerospace Cluster Partnership (GACP) is a coalition of 62 aerospace clusters covering Europe, Asia, North America, and Africa that promotes collaboration, knowledge sharing, and innovation in the worldwide aerospace community.

GACP's legacy began in 2009 when the city of Hamburg spearheaded the founding of the European Aerospace Cluster Partnership (EACP), a permanent partnership between 45 European aerospace clusters in 18 countries.

In 2018, EACP opened its arms to the world by organizing the Global Aerospace Cluster summits to promote collaboration among aerospace clusters worldwide. This initiative blossomed into what the GACP is today, a symbol of the enduring commitment of aerospace clusters worldwide to collaborate, innovate, and shape the future of the aerospace industry together.

### GACP China Hub Landing Zones in China for GACP Members

GACP China Hubs are a second home for GACP members and the nerve center for IASC's suite of SME services. The first GACP China Hub was established in greater Shanghai area in 2022. These facilities provide complimentary workspaces, showrooms, digital displays, business technologies, dedicated staff, and business services such as due diligence for GACP members to conduct meetings, showcase products and services, facilitate cultural exchanges, and offer talent development programs.

# GACP Co-hosting IASC Summit

in Shanghai, China from November 7-8th, 2024

The IASC Leadership Summit is an annual gathering where global titans, visionaries, and trailblazers, come together to shape the future of aerospace.

Since 2018, the IASC Leadership Summit has engaged global aviation leaders in discussions on business development and joint ventures. Participants include airlines (Air China, China Eastern, China Southern, Juneyao, Lufthansa), OEMs (Airbus, Boeing, COMAC, Rolls-Royce, GE Aerospace, Embraer, Leonardo), Tier 1 suppliers (Collins Aerospace, Honeywell, EATON, Safran, Thales), and MROs (HAECO, ST Engineering, BAESL).

We cordially invite you to the GACP China International Cluster Exchange, hosted during the 7th IASC Leadership Summit. Join us to meet aviation leaders, innovators, policymakers, and scholars. Explore industry-relevant issues, stimulate new thinking, inspire action, and network in a collaborative environment.

FORGE FUTURE

# Sichuan Forge Future Co., Ltd.

GLOBAL AEROSPACE  
CLUSTER  
PARTNERSHIP  
by EACP

IASC  
INTERNATIONAL AVIATION SME SOLUTION OF CHINA

## Company Overview

Sichuan Forge Future Co., Ltd. is one of the largest commercial-aviation ring-forging manufacturers in Asia. We have a world-leading intelligent ring-forging production line, providing customers with great quality consistency and perfect OTD, at a very competitive price.

Our products are also widely used in aerospace, vessels, and other high-end equipment fields. We are committed to utilizing "Forging 2.0" to provide our customers with one-stop complex component forming solutions.

## Core Competencies & Capabilities

### Certifications

ISO 9001:2015 Quality Management  
AS9100D (EN9100:2016 JISQ9100:2016)  
ISO14001:2015 Environmental Protection  
ISO45001:2018 Health & Safety  
NADCAP - Forging  
NADCAP - HT for Ti, Superalloy, steel & Al alloy  
NADCAP - NDT

### Qualifications

GE Aerospace S-1000  
Rolls-Royce Sabre  
Honeywell SPOC  
SAFRAN GRF0087  
P&W ASQR-01

\* Some qualifications contained in this presentation belong to the Group holding company.

## Matchmaking Targets

### Target Customer

GE Aerospace, Safran, Rolls-Royce, Pratt Whitney, Honeywell, TEI, GKN, MTU, ITP and other customers within aviation, aerospace, IGT, and high-end equipment industries.

### Mission

Leveraging "Forging 2.0" to provide one-stop complex component forming solutions to global clients

### Vision

To become a global leading solution provider for complex components in aerospace and other high-end equipment.

## Company Overview

Headquarters ..... Maanshan, Anhui

Number of Employees ..... 201-500

Segmentations ..... Engine Parts

Ownership ..... Private

Supply Chain Pyramid ..... Tier 1, Tier 2

Website ..... www.mat-cm.com

## Core Competencies & Capabilities

### Products & Services

Low-Pressure Compressor (LPC) Honeycomb Seals (GE Aviation)  
High-Pressure Compressor (HPC) Honeycomb Segments (GE Aviation)  
High-Pressure Turbine (HPT) Honeycomb Seals (Safran AE)  
Low-Pressure Turbine (LPT) Seals (Safran AE)  
Straightening (Parker Aerospace)  
Filter (Honeywell Aerospace)  
Brazing & Heat Treatment  
Electron Beam Welding (EBW)

### Certifications

Qualified Supplier of Rolls-Royce  
Special Process Qualification Certificate by GE Aviation  
Special Process Qualification Certificate by Safran AE  
AS9100  
Nadcap (Welding)  
Nadcap (Brazing & Heat Treating)  
Nadcap (NonDestructive Testing)  
Nadcap (Nonconventional Machining)

### Capabilities

Products Capability: Components (Compressor Part, Turbine Part, Honeycomb Segment, Sheet Metal Part)

Manufacturing Capabilities: Laser Cutting, Waterjet Cutting, CNC Machining, EMD, ECM, Composite Structure Forming, Sheet Metal Forming, TIG Welding, Electron Beam Welding, Heat Treatment, Brazing, Component Assembly, Digital Measurement, NDT (FPI & X Ray)

### End-Users & Programs (Work Packages)

GE Aviation  
Safran AE  
Rolls-Royce  
Honeywell Aerospace  
Avio Aero  
Parker Aerospace  
Barnes Aerospace  
MB Aerospace

## Matchmaking Targets

### Business Development

Existing Capability Development - OEM (HoneycombSeals)  
New Capability Development - MRO (Honeycomb Core), Nacelle (Acoustic Liner)

### Supply Chain Development

Raw Material (Nickel Alloy Foil) Supplier  
Development - Expanding Supply Chain Partnership

Website ..... <https://www.hongshi-group.com/>  
Segmentations ..... Aerostructures  
Special Processes and Experiments  
Parts Manufacturer Approval (PMA)  
Cabin and Cargo

## Core Competencies & Capabilities

### Products & Services

Aircraft Interior Parts  
Aircraft Structural Parts  
Engine and Nacelle Parts  
Aircraft Pipe Fittings  
Avionic Control Units  
System Parts

### Capabilities

Manufacturing of Aerospace Precision Sheet Metal Parts and Machining  
Special Process (Chemical Treatment, Heat Treatment, Welding, etc.)  
Tube Bending, Cutting, and Molding  
Assembly of Structural Parts and Electronic Components  
Laboratory Test (NDT, Chemical Test, etc.)

### Certifications

NADCAP Chemical Processing  
NADCAP Heat Treating  
NADCAP Material Testing Laboratory  
NADCAP Non Destructive Testing  
NADCAP Non Conventional Machining  
NADCAP Welding  
AS9102 First Article Inspection  
AS 9100  
ISO 9001  
ISO 14000

## Core Competencies & Capabilities

### Products & Services

From Titanium Alloy Melting to Final Bar/Coil/Forging Product  
Key Alloy: Ti-64, Ti-64 ELI, Ti-6242, Ti-6246, Ti-5553, Ti-1023

### Certifications

AS9100, ISO9001, ISO14001  
Heat Treat with NADCAP- 1set Certified  
NDT with NADCAP, from Class A to Class AAA  
Test Lab with NADCAP on Process (Application Plan to Be Submitted in Oct. 2024)  
Approved by Honeywell Aerospace and APC (GE Additive)

## Matchmaking Targets

### Business Development

Aerospace Titanium Alloy Coil, Bar of Aircraft and Engines

# Shaanxi Tiancheng Aerospace Co., Ltd.

## Products Name

### Titanium Rod Coil

Size:  $\phi$ 1.0mm-20.0mm / (0.04"-0.79")

Grade: Ti-64, Ti-64 ELI, Ti-38644, Ti-6242, Ti-6246, Ti-15333, Ti-422, etc.

Application: Aerospace fasteners, Surgical implants and devices, etc.

### Ultra-Fine Grain Bar

Size:  $\phi$ 15.0mm-80.0mm (0.59"-3.15")

Grade: Ti-64, Ti-6242, Ti-6246, etc.

Standard: AMS 4928, AMS 4967, AMS 4975, AMS 4981, etc.

Application: Aerospace, Surgical, etc.

### Bar

Size:  $\phi$ 80.0mm-500.0mm (3.15"-19.69")

Grade: Ti-64, Ti-38644, Ti-6242, Ti-6246, Ti-15333, etc.

Standard: AMS 4928, AMS 4967, AMS 4958, AMS 4975, AMS 4981, etc.

Application: Aerospace and Marine.

# Taicang High-tech Industry Investment and Development Co., Ltd.

## Company Overview

Taicang High-tech Industry Investment and Development Co., Ltd. was established in September 2022 with a registered capital of 150 million yuan. It is a state-owned enterprise under the Taicang High-tech Zone. The company is mainly responsible for the overall investment promotion work of Taicang High-tech Zone, with business scope covering industrial investment promotion and state-owned asset operation and management.

## Core Competencies & Capabilities

Taicang is accelerating the construction of a '5+5+5' modern traffic system (5 High-speed Railways+5 Intercity Railways+5 Airports). There are also S48 Sukuntai Highway and G15 Shenhai Highway in the area, which not only facilitates the lives of citizens, but also facilitates the daily commuting of employees in Taicang.

1848 foreign-funded enterprises have settled in Taicang. World renowned enterprises have established headquarters in Taicang High-tech Zone like Schaeffler Greater China headquarters, Nike's Asia Pacific headquarters, Unilever's global "Lighthouse Factory" and other Headquarters offices.

## Matchmaking Targets

In the Aviation Industry, core component enterprises such as Huaray Tec, Hyprop Tec, and Yugoo Fastening have gathered in the Taicang High-tech Zone; Aviation onboard systems represented by GTAC and Moog; There are also aviation supporting equipment represented by Black Dragon Intelligence and Ultra Precision Aviation; General aviation, represented by Star Tec and I-king Tec, saw its aviation output value exceed 15 billion yuan in 2023, an increase of 45%. The Taicang High-tech Zone is also making every effort to create an industrial business card of "Aviation Choose Taicang".

Taicang High-tech Industry Investment and Development Co., Ltd. warmly welcomes and looks forward to your frequent visits to the High-tech Zone and your investment and business development in Taicang High-tech Zone!

JONHON (Beryllium Copper Microfilaments)  
CAAC Aircraft Landing Gear Co., Ltd. (Landing Gear Bearing  
Copper-nickel-tin Alloy Material)  
Z&Z Optoelectronics Tech Co., Ltd. (Beryllium Aluminum Alloy Parts)

### Certifications

ISO 9001

## Matchmaking Targets

### Business Development

Expand the Manufacturing Capability and Procure High-end Smart Equipment  
Become Aviation Metal Material Supplier  
Beryllium Copper Alloy Related Integrated Electronic Components

# China SkyAero Engine Maintenance Co., Ltd.

## Company Overview

Headquarters .....	Wuhu	Number of Employees .....	11 - 50
Segmentations .....	Aero-Engine, Maintenance	Ownership .....	Private
Supply Chain Pyramid .....	MRO	Website .....	www.skyaero.com.cn

## Core Competencies & Capabilities

### Products & Services

CF34-8C/10A/10E and Other Small to Medium-sized Aero-Engine Maintenance, Repair and Overhaul Business  
Line Maintenance  
Aircraft Overhaul and Aircraft Painting  
Aircraft Department Accessory Maintenance  
Aircraft Dismantling  
Repair and Modification Construction Capabilities of MDA  
Forensics  
Business Jet Hosting

### Capabilities

CRJ-200 40000FH (not included) /96M (inclusive) and CRJ-700 /6000FH/6000FC/48M (inclusive) and CRJ-900/25000FH/25000FC/108M(not included) Inspection, Engine Replacement, APU, Landing Gear Maintenance Capabilities  
CRJ-200/-700/-900 Aircraft Technical Assistance  
A319/A320/A321 Series: Limited 125200FH/62600FC/360M (inclusive) and Below Regular Maintenance  
ARJ21-700 Series: Limited to 8000FH/8000FC/48 Months (Excluding) and Below Regular Maintenance  
B737NG Aircraft: Limited to 750FH (inclusive) /50FC (inclusive)/75DY (inclusive) and Below Regular Maintenance

### End-Users & Programs (Work Packages)

· Airlines

## Matchmaking Targets

### Business Development

New Capability Development-Passenger to Freighter Conversion

# Jiangsu ERiC Aero Science And Technology Co., Ltd

## Company Overview

Headquarters ..... Suzhou      Website ..... www.eric-sz.com  
Ownership ..... Private      Contact Name ..... Joe Zhao  
Number of Employees ..... 420      Contact Email ..... Sales\_eric@eric-sz.com

## Core Competencies & Capabilities

### Products & Services

High Precision Machining  
Special Process  
Sheet Metal and Assembly

### Capabilities

Complex Machining Parts  
One Stop Solution for Multiple Special Process  
Complex Assembly Cabinet

### Certifications

AS9100  
Nadcap

### End-Users & Programs (Work Packages)

Avionics for Collins  
Interior for Safran

## Matchmaking Targets

### Business Development

More Capabilities for Special Process  
Hard Metal Machining  
Engine Component Machining  
Actuation System Key Component Machining

### Supply Chain Development

Material Resource Supplier Development

## Core Competencies & Capabilities

### Products & Services

Metal AM Machine  
AM Part Manufacturing Service Metal AM powder  
Consulting

### Capabilities

Metal LPBF Technology  
Expertise in Custom Material Development for AM  
High Precision and Large-Scale Manufacturing Capabilities  
Rapid Prototyping and Iterative Design Services

### Certifications

1st Qualified Supplier in Asia To Supply Serial Production  
for Commercial Airplane Flyable Parts  
EN9100 ISO45001  
ISO9001 Nadcap  
ISO14001

### End-Users & Programs (Work Packages)

Corporate Clients across Aviation, Aerospace and Mold Industry.  
Collaborative Projects with Major Aircraft Manufacturers for  
Lightweight Components with Complex Structures.

## Matchmaking Targets

### Business Development

Expand Market Reach Through Strategic Partnerships  
Grow Client Base in Aerospace Sector  
Develop New Business Opportunities in Emerging Markets  
Enhance Service Offerings to Meet Customer Needs

### Supply Chain Development

Optimize Supplier Relationships and Logistics Efficiency  
Implement Lean Manufacturing Principles for Streamlined Operations  
Enhance Inventory Management and Procurement Strategies  
Foster Sustainability Initiatives across the Supply Chain

# Bright Laser Technologies Co., Ltd.

## Products Name and Images

Metal AM Machine

10+ Types of Model  
Maximal Build Dimension 1500/1800mm  
Maximum Qty of Lasers: 26 Lasers

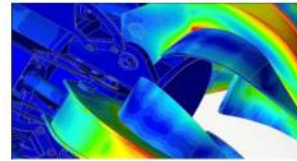

AM Parts Manufacturing Service

440+ Printers for Printing Service Bureau  
60+ Metallic Materials  
50+ Manufacturing Process in House

Metal AM Powder

10+ Powder Production Lines  
400 Tons + Yearly Capacity

Consulting

500+ R&D People Can Provide Simulation & Optimization  
Consulting Process & Parameters Design

## Core Competencies & Capabilities

### Products & Services

Assets Trading and Teardown  
Aircraft & Engine Leasing  
Parts Distribution & AOG support

### Certifications

Certificate of Aircraft Parts  
Distributor from Civil Aviation  
Maintenance Association of China

### Capabilities

MAG is a global aviation company offering Aircraft Tear Down and Parts Out Services and Sales, Aircraft Leasing, and other aviation services. Our MAG Tear Down operation offers aircraft tear down and recycling services and aftermarket-support for Commercial Aircraft, specializing in quality parts, sales, and leasing.

## Matchmaking Targets

Mentis Aviation Group (MAG) incorporated in 2018 to aggressively pursue a role in one of the most underserved—and potentially high-growth—sectors in the Asian aviation market: a Commercial Aircraft Parts Distribution, Recycling and Tear Down Operation with a leasing platform focused on mid to end-of-life assets as feedstock for the operation.

# MENTIS AVIATION GROUP

## Aircraft Recycling

- Aircraft Teardown
- Engine Teardown
- Parts Refurbishment
- Passenger to Freighter Conversion

## Leasing and Trading

- Aircraft, Engine and APU Leasing
- Whole Asset Sales and Exchanges
- Short-Term Engine Rentals

## Material Solutions

- Inventory Management / Evaluations / Consignments
- Surplus Part Sales
- Component Exchange & Leasing
- Repair Management

## Sunset Fleet Solutions

- Aircraft Evaluations & Asset Management
- Technical Support and Records Management
- Asset and Lease Management Services
- Shop Avoidance Programs
- Aircraft Monetizing
