

Online EACP Global Market Information Day

International Clusters from the GACP are invited to introduce their markets to EACP clusters and their companies. The main target audience will be on companies but cluster managers are free to attend the event as well. The event will be structured into two dedicated sessions for the eastern and western part of the GACP respectively. Both sessions will happen on the same day – one in the morning and one in the evening.

Each region will have 10 minutes to pitch their region. A 5-minute Q&A session is planned after each larger market presentation. Due to the limited time, presenting clusters should keep it very concise and only inform about concrete business opportunities and important market characteristics. An online event series will be planned for the future giving each cluster more time to introduce more in detail their region as well as to announce important international business events in the region.

Before the event on September 24, EACP coordination will provide a template with some key questions and topics that should be addressed in the presentation.

Proposed Structure/Timetable

Tuesday, 24th September 2024

Morning Session

Time (CEST)	Topic	Regions	Cluster
