

February 2025

Information to all business partners

### Expansion of the management

Dear business partners,

The management of INVENT GmbH was expanded on 1 January 2025. This will spread the tasks of the growing company over a broader range of shoulders and ensure company succession. The management is now made up of the following members:

- **Henning Wichmann:** Previous Managing Director, still responsible for overall company management.
- **Dr. Fabian Preller:** Responsible for technology, product development and innovation management.
- **Christoph Tschepe:** Responsible for sales, focussing on maintaining and expanding customer relationships and development of new markets.

Dr Fabian Preller and Christoph Tschepe have been closely associated with INVENT for many years. With their expertise, commitment and close cooperation with you as our business partners and our employees, they have made a significant contribution to the development and success of the company. Together with Henning Wichmann, they form an experienced and competent management team that is ideally equipped to lead INVENT into a successful and sustainable future.

The expansion of the management team ensures stability, strengthens innovative power and creates room for further sustainable growth. INVENT remains true to its mission of setting new standards in the development and production of lightweight structures for aerospace and related high-tech applications.

We would like to thank you for your trust and loyalty over the years. We look forward to continuing and intensifying our successful collaboration with the new management team.

With kind regards,

The management of INVENT GmbH

Henning Wichmann

Dr. Fabian Preller
